***Response to Election***

Applicant's election with traverse of Group I, Claims 1-10 in the reply filed on 2-12-2005 is acknowledged. The traversal is on the ground(s) that there should be no restriction between Groups I and III. This is found persuasive. The restriction between Groups I and III is rescinded, Claims 1-10 and Claims 16-20 will be prosecuted.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by the admitted prior art as shown in figures 1-6 and pages 1-10 of the specification.

***Allowable Subject Matter***

Claims 3-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Edwards, Drexler Butler and Foreman. Are cited to show structure similar to the claimed invention.

Art Unit: 3742

Applicant's arguments filed 6-13-2006 have been fully considered but they are not persuasive. Applicant's argument that figure's 1-6 do not show at least a two part magnetron as is well known in the art please read pages 1-10 of the specification regarding the construction of a typical magnetron using ceramics and metallic construction..
